

SIMON COSCINO-MOLLARD

FRONT-END WEB DEVELOPER & DESIGNER

PROFIL

Seeking a 6-month internship.

After several years spent working on visual communication and web design projects, I joined Donkey School with the intention of becoming an expert in front-end development and building a high UI/UX design solutions sensibility.

SKILLS

FRAMEWORKS & CMS

ANGULAR: development of a web application for calculating rental profitability (in progress), a todo-app with BULMA, a pokédex. Integration of BOOTSTRAP on several projects. WORDPRESS: realisation of 3 projects including a wine cellar with online shop and SumUp payment. SYMFONY: creation of a blog with the API Platform.

LANGUAGES

Development in TYPESCRIPT on ANGULAR and PHP on SYMFONY. Development of 3 complete portfolios in JAVASCRIPT, CSS/SCSS and HTML.

TEAM WORK

GIT using terminal on each project and monitoring on GITHUB. Development with AGILE / SCRUM method: user stories, backlogs and sprints.

UI / UX DESIGN

Design of models and prototypes with FIGMA or ILLUSTRATOR. Creation of two projects through WIX.
